# VEGRASSOL PUF

Lightfast special fatliquoring agent for C.G. softy & all types of upper leather.

## CHARACTERISTICS:

<b>Chemical Composition</b>	:	Phosphoric ester with special additives.
<b>Aspect</b>	:	Off white paste.
<b>Active Matter</b>	:	32% ± 2
<b>pH (10 % Soln)</b>	:	6.0-8.0
<b>Stability</b>	:	Stable with acid, base and hard water at usual concentrations; compatibility with anionic dyestuffs and vegetable tannins.
<b>Storage Stability</b>	:	Atleast 6-9 months when properly stored.

**Note:** *VEGRASSOL PUF is supplied in the form of an emulsion and as such it is subject to small variation in colour and consistency. However this has no influence on the technical properties of the leather.*

## PROPERTIES & APPLICATION:

**VEGRASSOL PUF** ensures a well-balanced fatliquoring effect throughout the whole leather cross section without grain looseness, lightweight leathers of good softness are obtained. Neither colour nor the adhesion of the finish are unfavorably affected.

**VEGRASSOL PUF** imparts excellent lightfast, dry feel to the leather and also imparts better buffing and snuffing properties with a sort and even nap, which makes it more suitable for Nubuck, suede and upper leather.

**VEGRASSOL PUF** has outstanding performance specially for shoe upper leathers, due to the special character, it does not make grain loose, specially for the cow articles.

**VEGRASSOL PUF** is highly recommended for cow softy, cow burnish, cow nubuck, buff softy and all types of upper leathers. With **VEGRASSOL PUF** optimum softness along with good body is obtained. It also helps in avoiding grain looseness.

**VEGRASSOL PUF** can be used 2-8% depending upon type of leather to be produced and result required.

*The above results have been obtained from trials in our laboratory and plant in the light of changing conditions, they can only serve as a guide and are therefore offered without obligation.*
