

**Synthetic, lightfast fatliquoring agent suitable  
for nappa, clothing & garment leather.**

**CHARACTERISTICS:**

<b>Chemical Composition</b>	:	Based on synthetic ester oil.
<b>Aspect</b>	:	Reddish brown liquid
<b>Active Matter</b>	:	60%+-2
<b>pH (10 % Soln)</b>	:	7.0 – 9.0
<b>Lightfastness</b>	:	Excellent
<b>Stability</b>	:	Stable with chrome, mild acid, alkali & hard water.
<b>Storage Stability</b>	:	6 – 9 month when properly stored.

**PROPERTIES & APPLICATION:**

**VEGRASSOL SF-GOLD** is a versatile fatliquor combinable with all of anionic & non ionic fatliquors and capable of producing leathers with required softness. The level of inner softness achieved with **VEGRASSOL SF- GOLD** is excellent.

Due to highly penetrative in nature, leather treated with **VEGRASSOL SF-GOLD** produced good softness, nice surface touch; full and round feel as well as uniform and level dyeing.

Due to its high degree of light fastness, **VEGRASSOL SF- GOLD** is highly recommended for all types of light and pastel shades.

**VEGRASSOL SF- GOLD** can be used 2.0–8.0% depending upon types of leather to be produced and result required.

*The above results have been obtain from trials in our laboratory and plant in the light of changing conditions, they can serve only as a guide and are therefore offered without obligation.*
