VICASTOL GL

Specially designed fatliquor for gloving, garments, Lining & printed leathers

CHARACTERISTICS:

Chemical Composition	:	Blend of synthetic and ester oils
Aspect	:	Reddish brown liquid
Active Matter	:	60% ± 2
PH(10% emulsion)	:	7.5 - 8.5
Light Fastness	:	Good
Stability	:	Stable to mild Acids, neutral salts. Bases at usual concentration
Storage Stability	:	9-12 months when properly stored

PROPERTIES & APPLICATION:

VICASTOL GL has good penetration properties. It imparts very good softness with good fullness, uniform grain & supple feel. **VICASTOL GL** gives uniform softness throughout the leather with good body & print retention capacity.

In semi-chrome tanning **VICASTOL GL** helps to improve smoothness and to avoid down grain effect and imparts good lubricating properties.

VICASTOL GL enhances softness, fullness and gives the leather a smooth pleasing handle especially when used in the main fatliquoring combination.

VICASTOL GL has good compatibility with vegetable tannins and helps to improve the grain strength and to avoid down grain when used during the vegetable tanning operation.

VICASTOL GL can be emulsified with hot & cold water. At every concentration it is suitable for Nappa, Gloving leather, Printed leather and all type of soft leather.

VICASTOL GL can be used 1.0-8.0 % depending upon type of leather and result required

The above results have been obtained from trials in our laboratory and plant in the light of changing conditions, they can serve only as a guide and are therefore offered without obligation.
