# VICASTOL HPS

## Synthetic lightfast synthetic fatliquoring agent for all types of leather

### CHARACTERISTICS:

<b>Chemical Composition</b>	:	Based on Synthetic oil
<b>Aspect</b>	:	Pale yellow liquid.
<b>Active Matter</b>	:	70% ± 2
<b>pH Value (10% Soln)</b>	:	7.5-8.5
<b>Ionogenicity</b>	:	Anionic.
<b>Stability</b>	:	stable to mild acid, alkali, salts.
<b>Storage capacity</b>	:	9-12 months under normal conditions

### PROPERTIES & APPLICATION:

**VICASTOL HPS** is transparent fatliquor based on synthetic oil, imparts good body and softness. Due to its nourishing qualities it gives extremely soft feel and also silky touch to the leather.

**VICASTOL HPS** is compatible with anionic and non-anionic products. Its low cloud reduces the risk of spue formation due to the other fatliquor based on vegetable. Suitable for Nubuck and suede leather also because it does not interfere in buffing property.

**VICASTOL HPS** is mainly used for fatliquoring soft leather, when it is used alone, the fatliquor with its good fat dispersing effect also produces good result even softness with mellow feel.

**VICASTOL HPS** is extremely light coloured oil with excellent light-fastness hence suitable for Gloving, Garment, Softy Upper, Nappa, Nubuck suedes and vegetable tanned leather.

**VICASTOL HPS** can be used 2 % to 10 % depending upon type of leather to be produced and result desired.

*The above results have been obtain from trials in our laboratory and plant in the light of changing conditions, they can serve only as a guide and are therefore offered without obligation.*
